

Cork Week 2026

Scoring Inquiry

Race Date: 2026-07-11

Received: 2026-07-11 22:29 IST

Request No.: 36

Course: Na

Race No.: Na

Posted Score: Incorrect irc overall ranking

Competitor: Coastal 1 - IRC - A - IRC 0 & 1 - IRL 3429 - el Syd - Frank Whelan

Scoring Inquiry:

My e mail earlier to Ross Deasy attached which covers how I believe El Syd finished ahead of Symmetry for the ICRA overall winner.

Hi Ross, I wonder can you check the math again on who should have won the Overall Icra Prize at cork week. Per the S1's the formula for overall Icra winner was,

13.2 The overall winner of the 2026 ICRA National Championships in IRC and ECHO shall be selected from the boats which have won their respective ICRA class under the rating system concerned, and presented to the boat having the lowest number calculated according to the following formula:

[*Total score excluding discards* divided by the number of races completed in the class.] ÷ *umber of boats that sailed at least one race in class*

In the event of a tie, the boat from the larger ICRA class shall be declared the winner. If a tie remains, a joint award shall be made.

Ok, so Symmetry results by my calculations would be 11 divided by 8 which is 1.375. Then divide that by 8 which would be ---0.171875. (Chronos didn't sail)

El syd calculations would be

4 divided by 5 which is .8. then that divided by the number of entries which was 6—result would be 0.1333333

Does that not mean that we had a lower score than them. Maybe I am confused or not great at the math. Maybe you might check this.

Regards,

Mark
