Scoring Inquiry:

I am using my alternate club cert as outlined on my entry. My handicap for IRC should be .944

Response:

Hi Ronan

Our Normal process is to validate all the handicaps once the entry cut off expires on Friday evening to ensure that a relevant certificate is held (ECHO/IRC/ORC). As part of this process we also pick up which IRC cert has been nominated for the event.

For now you are noted with your primary certificate as that is the default on Halsail.

We will also be publishing the opening ECHO handicaps allocated after the cut off period expires on Friday.
