Scoring Inquiry:

I started the 4th race in red fleet first on the pin end, I am 100% sure that I have not been over the starting line. I also waited 2 more seconds after the starting signal to point upwind, because I had the space to do so. Even my coach commented that I pointed too late. When I went to the comite boat to see who was out and take the time for the next start, I saw my number on the bfd board. I kindly ask the race comite to re-listen or re-view the tape of the start and give me a redress.

Witnesses:

CRO - 213986

Response Title:

Update: RO has checked back tape and confirms 207288 as on course side at starting signal.
We'll ask RO to review, but can confirm 207288 was listed on the BFD board.
