### Scoring Inquiry:

209386 and 216258 did not have a drop taken out from the final series

---

### Response:

The short answer is that the drop races are correct as seen on the results.

#### Key points:

- NOR 12.4 states with 10 or more races, the 2 worst scores can be excluded.
- SI Addendum 1 continues the explanation of how the drops can be selected from all the race scores. 3.6 of the Addendum is the key entry. It reads, " If two or more final series races are completed, then a maximum of one final series race score **may** be excluded." Notice it says, "May" and not "Shall". This means its not required to take one from the finals at all. However if you have your two worst scores in the finals you can only exclude one.

Notice the score line of the 3rd place overall. He had most of his worst scores in the finals but was forced to drop a good score in the qualifying.

This method puts a higher *value* on the final series races which is the intent.

I hope this answers your inquiry.
