Scoring Inquiry:

I have the same sail number as Olivia from New Zealand. Today I was looking for her just to make sure the results were matching what I saw. It looks like my scores are right in all the races except the 2nd race. In that race I'm pretty sure I finished before her because right my position is behind another danish guy in that race and I was for sure in front of him. So I think our results have been swapped around in race number 9. I therefore ask to have the finish position she has. She is noted for a 43 and that is where I think i finished.

Response Title:

Approved.
