Scoring Inquiry:

I finished 1st for the first race and 2nd for the second race. I should be scored as such, without taking into account the ILCA 7s. By taking into account the ILCA 7 scores, 197844 has been scored 8th and 5th for race 1 and 2 respectively, which ties his points with mine, despite the fact that he finished 3rd and 1st as an ILCA 6, which should place him 1 point behind me. As such discrepancies can occur by including the ILCA 7 scores into ILCA 6 scores, I request that our scores be kept independant.
