Scoring Inquiry:

The W flag went up on the last reach leg. Leg 6 on the 4th race. I was on my reach and had passed boat number 211461. I was over 5 boat above boat 211461 and was rounding the finishing reach mark. Boat 211461 was 5 boat lengths below the mark and was clearly below me, as the W flag went up boat 211461 sailed in. I was clearly ahead of boat 211461 and should not have been scored 5.5 on the results. I was originally scored 5 points. In fact I finished the entire race and was ahead of 211461. I totally disagree with the score correction and it should be changed back to the original result (5 points)
