**Course:**

**Race No: 2**

**Posted Score: DNF**

**Protest Party: RS100 - 503 - Adam Catlow**

**Scoring Inquiry:**

Hi, please could you advise why the scoring of DNF is all Registered boats +1? RRS states that a DNF score should be the number of boats which started said race +1

Surely this is an unfair score due to the fact that a number of boats didn't leave the shore so why should one be scored against boats that they haven't raced against?

Thanks  
Adam

**Response Title:**

Your class did not request any amendments to RRS A5.2.

Therefore the score you have been given is correct as per the NoR and SI's for your event.
