### Scoring Inquiry:

We believe we finished first in the race as there were no boats ahead of us at any of our mark roundings. 3870 finished behind us by a large margin and 5248 was never near us during the race. We request that the race committee reviews the records of the mark roundings during that race to verify that we finished first.

### Response Title:

Corrected Score: 1

5248 submitted a request to let us know they did not finish in first. JW
