I started the race you should see it on the video. I was with 21m Flysurfer. I could hardly go upwind at that point so I couldn't cross the start line on starboard but after like 20-30 sec I made a tack and crossed the starting line on port tack. I'm also sure that it was in 1 minute after the start signal.

My helmet is pink

I also finished the race in about 15min30sec

**Witnesses:**
